

flowing on the earth's land surface or
inside comes towards another underbody at

Ans to the Qno-1

The one given name is Ganga river

Ans to the Qno-2

Ganga river in future affected and people are lots of loss in standard living of livelihood. They ^{are} blowing very vast and its length and width is longer other river. ~~This~~ river

answer to the Qno-3

No, in this river in future do not playing.
Because there is a huge of landmasses.

Q.1. Ans ÷ River means to me that a life can survive in daily life. Because we can't live without river or water. It's help can our agriculture, can ~~to~~ drink, can fishing. Many ~~life~~^{people} survive with fishing in their daily life. So, we can't live river in our life.

Q.2 Ans ÷ In our region the culture of river is maybe ~~be~~ bring a problem because every year there flooding. And we survive the problem for agriculture.

Q.3 Ans ÷ No, I don't see anything.

1. What does River (the one in your region) mean to you?

⇒ In my opinion River is everything more specially for rural people. It is the way of livelihood. A River is the life of every plant and animals. It is the income source for people. It provide water for agriculture. River is also related with our festivals, our culture etc (Brahmaputra).

2. What is the future of River (the one in your region)?

⇒ Now days we can see the ^{about the} Brahmaputra river that there is continuously decreasing the depth of river floor. And in between the whole river we can see different small small sand island, all ~~time~~ the decreasing the capacity of the river of water holding.

3. Do you see your future generation playing in this river?

⇒ No, it will not possible. Because of polluted water and drying of the river.

the river will flow for few generations
more. However, the river is highly
polluted.

3) yes, for some more generation the
river will flow & future generation will
be playing

① Ans: A river is a natural flowing watercourse, usually a freshwater stream, flowing on the earth's land surface or inside canes towards another waterbody at a lower elevation, such as ocean, sea.

③ Ans: No, I don't see our future generation playing in this river.

1. What does River (the one in ur region) mean to you?

2) What is the future of River?

3) Do you see your future generation playing in this river?

1) The river in my region is Gaurang, it is means for irrigation, fishing, recreation, drinking water for livestock and ecosystem of several water bodies.

2) As of the future of River, the depth of the river is decreasing but I believe because of construction of dam but I believe

1. What does River mean to you?

Ans The river which flows in front of my house and it is very important for our society. We use to get fish from the river Kalkuna. But it is also sometime harm us by flooding when the Brahmaputra overflow. So in one sentence the river Kalkuna is both helpful and sometimes harmful for us.

2. No Ans > The future of the river Kalkuna is in danger. Because the people

~~3. No Ans~~ are use to through wastes on the river which is very much harmful for the river and river life.

3. No Ans > No, our future generation will not playing in this River.

Q.1. Ans:- River is life for humans, animals and plants. River is a source of many peoples for live lihood. Without water no one can live. Riven plays a great role on our society, agriculture and peoples.

2. Ans:- The future of our nearest river is very poor. Because of sand mining the water capacity going low and erosional process ~~has~~ will happen.

3. Ans:- I think the future generation of our village will not playing in this river.

Q1. A river is a channel of water, usually flowing from highland to lowland with the force and meets with ocean or sea. River plays a very important role for all the living things. River is needed for agriculture, fishing etc.

Q2. The future of river is not good because of human activities the rivers are getting dirty which is very harmful for flora and fauna.

Q1. According to my thought river is a resource of physical environment which are serving primarily to human being.

Q2. Future of river depend on us, rivers serve freshwater to us but nowadays its complicated relation with human being.

Q3. A long seeing present situation. No.

1. No. & Ans: -

A river is a natural flowing water course.

2 No. & Ans: -

The future of rivers depends on how they are managed and protected.

3 No. & Ans: -

The ability of future generations to play in rivers depends on how we collectively manage and preserve these water bodies.

Ans 1:- ~~Answer~~ ~~being~~ one of the important
role of living. and also a gift of
nature.

Ans 2:- polluted

Ans (3):- No.

1. River to me means source of water to drink, to wash clothes

2. The future of river means to throw the garbage means future seems like the river full of garbage.

3. No, in future I don't see children in the river instead a garbage or a drain water.

~~What does~~

~~Q~~

Answer:-

1. Rivers carry water and nutrients to the areas on the earth. They provide excellent habitat and food for ~~human beings~~ and animal earth's organism.

2. The future of rivers is in danger, as the human beings are polluting the rivers.

3. No.

Answer to the Q.No.1

Rivers carry water and nutrients to the areas on the earth. They provide excellent habitat and food for earth's organisms.

Answer to the Q.No.2

The future of river is in danger, as the human beings are polluted the rivers.

Ans:- No.

1 Ans :- River is the life line of the people depending on it

2 Ans :- As people are now educated and their life is depending on it so it is in safe hands.

3 Ans :- No, ~~today~~^{is} the future generation don't show any interest in playing in river.

Ans:-1. River means its a life giving source for living being.

Ans:-2. The future of River is in danger because the human being is making polluted the river by throwing garbage in river.

Ans:-3. No, because the river is being polluted by the human beings.

1) Ans → The river in our

region is (Yaukang river).

Yaukang river holds diverse meaning, often encompassing both practical and symbolic significance.

2) Ans → The future of River

in our region can be both

influenced by human activities and natural

calamities.

3) Ans → I could possibly see

my future generation playing

in this river because the

socio-cultural values, this river

has in our society is commendable.

Bipul Narzary

Ans 1: The river in our region (Graunang river) means a lifeline to me on my society. Almost 80% of the population engage in primary activities in the river and it is the source of irrigation.

Ans 2 The future of this river is unfortunately bad. Some irresponsible people use chemicals (bleaching) to catch a lot of fish at ~~one~~ some time. Electrify the fish, which kills all the fish and the eggs. (not even snails remains).

Also with global warming the water level has shrunk dramatically.

Ans 3 Not a chance! The future generation will not be able to play because the quality of river will be very bad and the water level will shrink. Infectious diseases will be the main cause that will make people stay away in future.

1 No. & Ans:-

A river is a natural flowing water course.

2 No. & Ans:-

The future of rivers depends on how they are managed and protected.

3 No. & Ans:-

The ability of future generations to play in rivers depends on how we collectively manage and preserve these water bodies.

1 No. & Ans:-

A river is a natural flowing water course.

2 No. & Ans:-

The future of rivers depends on how they are managed and protected.

3 No. & Ans:-

The ability of future generations to play in rivers depends on how we collectively manage and preserve these water bodies.

Ans to the Q. NO. 1

A river is a body of water that flows downhill from the force of gravity.

Ans to the Q. NO. 2 Due to the pressures of population and development over perennial rivers are becoming seasonal.

Ans to the Q. NO. 3

I don't know.

Ans to the Q. NO. 1

A river is a body of water that flows downhill from the force of gravity.

Q. NO. 1. Ans - A river is a ribbon-like body of water that flows downhill from the force of gravity.

Q. NO. 2. Ans - River conservation not only ~~protects~~ protects the water, but also the land around it, allowing wildlife a space to thrive.

Q. NO. 3. Ans - Yes I see our future generation playing in morapagladia river, this river is situated in Balesa district.

Q. No. (1)

Ans: River means body of water which present in plain surface of the earth.

Q. No. (2)

Ans: The future of River may be very dangerous, because for the cause of global warming.

Q. No. 3 Ans: No

Ans to the Q. NO. 1

Q1. Ans - River is a stream that flows from high elevation to low elevation. It is a source for most important thing that we need for life.

Q2. Ans:- The future of river in my region is in danger. It is affecting day by day by various anthropogenic activities.

Q3. Ans:- I don't think that our future generations will be familiar with the term river. It will be very important for us to think about river.

1) An: Sankosh Rini or Bahmagotra Rini.

2) An: There are some services

of all kinds that must be concerned by conscious people.

Some are family they are alienated the kind of Rini and

day by day people come across and the main shelter aesthetically.

That is a cause of the problem in course of and current of young Rini. And they are crying Rini minimal exploitly, that should be resolved.

3) Rini may be seen different from present day. Future postmortem would see Rini different.

Ans to the Q. NO. 1

Q1 Ans: Since I come from a place where there are no rivers nearby it means a very beautiful place to me whenever I get a chance to see or play in the river my heart fills up with joy.

Q2 Ans :- Since factories are being made the river is being polluted and has been dried up and I hope that we as a community can help in some way so the river doesn't dry up.

Q3. I would love the future generation to know about river and play in it feel the nature and connect to it in one or other way and be involved with nature.

1/ what does River (the one in your region) mean to you?

2/ what is the future of River (the one in your region)?

3/ Do you see your future generation playing in this river?

1/ Ans River in my region is very helpful for locality for various purpose. The river name is ~~Bar~~ Amfarna.

2/ Ans Due to natural calamities and man made calamities, ~~its~~ the river canal is erode day by day.

3/ Ans Yes, future generation must have take enjoyment this River

1. What does River (the one in your region) mean to you?

2. What is the future of River (the one in your region)?

3. Do you see your future generation playing in this River?

1 Ans: River which one in my region is all about beauty, peacefulness, natural phenomena,

2 Ans: The future of River which was in our region is like about slowly not the way it was before. ~~It~~ Though it may rain but it never full of water it dries very easily and means we can say the river

... and Mahanagar

does River (the one in your region)

you?

River

to me

us

Also

who

it have

one

consider

place

of

the

the f

ion)?

ans

e ?

we

resp

nowadays are totally dried in my area.

Ans From my point of view as 'the hydro electricity, dam are being projecting, I can see future generation in time it will be come rare, as there is some ecological cycle and which will get affected and it will destroy the cycle.
